The restroom went touchless. The toilet seat didn't.

A foot pedal that lifts a commercial toilet seat and lowers it gently. **No power, no sensors, no plumber.** It bolts onto the toilets you already have.

No power
Nothing to wire or charge

No sensors
Nothing to calibrate or fail

Installs in minutes
On the existing seat bolts

3-year warranty
Industrial-grade aluminum

HOW IT WORKS

One step. No hands.

Step. A foot finds the pedal.

Lift. The seat rises, hands-free.

Lower. Step off. It comes down quietly.
